

# International Walk to School Month October 2017

## Finding Hari

# Hari Bear has a mission to help us all to:

- Reduce number of cars coming to school
- Improve air quality around your school
- Help us all get fitter by being more active
- Think about people who cannot safely get to school

# Finding Hari

We have hidden 15 different Hari bears in each of these parks for you to find and read the messages on them:

Lordship Rec, Priory Park, Markfield Park,  
Chestnuts, Bruce Castle Park.

- Last year many of you sent us pictures, go to one of these parks with your teachers and see if your bear won!

# Walking To School is important for you

- We know sometimes it may be raining
- You might get up late
- We know some people love to stay in bed and get in a car and drive to school
- But walking to school is so good for you even if it is not every day.
- Air quality and health will improve if we decide to walk, instead of being driven to school

# Not enough time!!!

**Haringey**  
LONDON

# This is how some children get to school in other countries

Children cross a tightrope 30 feet above a river in Padang, Sumatra, Indonesia

Some have a lot of hazards  
to get through

# October is International Walk to School Month

- 1) So let us all try to walk to school a bit more to reduce the air pollution
- 2) Think about other countries where they are not able to get to school, easily, or safely.
- 3) With less cars at school gate, it will definitely be safer for all of you to get to school.

Have fun and Walk, get fitter and keep safe.  
But please follow the Green Cross Code

## Finding Hari

Please go and find him and his friends with your class and with your family:

Lordship Rec

Bruce Castle Park

Chestnuts Park

Markfield Park

Priory Park
