Rock Against Racism was a campaign set up in the UK in 1976 as a response to a rise in racial conflict and the growth of white nationalist groups such as the National Front. The campaign involved pop, rock, punk and reggae musicians staging concerts with an anti-racist theme, in order to discourage young people from embracing racism. Attracting large crowds of more than 80,000 for a series of live gigs around the UK the grand finale was held in the Great Hall Alexandra Palace on 14th April 1979.

"I've been going to band in a week for years. It's super fun, which is why I keep coming back. It's really contributed to building my confidence in showcasing my music and a great place to find diverse yet like-minded people!"
